

Environmental

B&N Glass & Aluminium manufactures and installs glass and aluminium doors, windows and frames for the residential and commercial sectors.

Commitment

- To meet our environmental obligations in accordance with Environmental Acts and Legislation and relevant legal and other requirements, including Local Government and contractual requirements and other requirements placed upon the organisation, or to which the organisation subscribes
- To comply with legislation protecting any site, place, structure or material of cultural heritage or habitat significance
- To comply with the international standard ISO 14001:2015 – Environmental Management Systems
- To review the effectiveness of our environmental objectives and practices
- To provide information and training to our people in environmental issues awareness and work procedures
- To ensure incidents are promptly investigated and causes are corrected and prevented from reoccurring
- To act with due regard for the requirements and expectations of our clients, neighbours and community, stakeholders, insurers, and industry associations.

Key Objectives

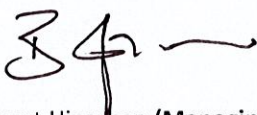

- To prevent pollution, minimise waste, reduce our use of hazardous substances, reduce industrial noise and emissions, reduce use of non-renewable resources, and to increase recycling.

Positive Practices

- Minimise use of plastic
- Sell and recycle paper, cardboard, timber, and metal offcuts
- Use digital capture of records and information, and reduce use of paper
- Use more energy efficient equipment and systems to reduce power consumption
- Use local labour, materials and transport where available to reduce CO2 emissions and energy consumption, and to support the local community.

Application of this Policy

This policy applies to all business operations and functions. We seek the co-operation of all workers, customers and interested parties. We encourage suggestions for realising our environmental objectives to minimise our impact on the environment.

Brent Hinschen (Managing Director)
